

Thaina Senra

PORTFOLIO

- <https://tynasaur.github.io/portfolio-website/>

PROJECTS

Meet App

- Built a serverless, progressive web application with React using a test-driven development technique using Google calendar API to fetch upcoming events

MyFlix

- Developed a server and client-side movie application using MERN stack and Angular where users can view movies in database and add favorite movies to a list in their account

Pokedex

- Built web application with HTML, CSS and JavaScript that loads data from an external API and enables the viewing of data points in detail
